

Let's go on a coconut power trip and slip into summer like we were born to bikini.

Let's make coconut a friend with many benefits. Let's hook up with hydration. Moisturize like a boss. Love on lips. Wipe out wrinkles. Cure cuticles. Tame fuzzy flyaways. Split ends, be gone.

At Kopari, we coconut like we give a damn. We're unnaturally obsessed with all things au naturel. We're prejudiced against parabens and give a stiff middle finger to sulfates. In a nutshell, we're passionate about products that make you look gorgeous with ingredients that make you feel great.

So we're calling all coconut virgins and junkies and everyone in between. Grab life by the coconuts. Because coconut is one mother of a multitasker. And we think that's beautiful.
