What is Splunk?

Subhead dolor sit amet, consectetur adipiscing

You see servers and devices, apps and logs, traffic and clouds. We see data—everywhere. Splunk® offers the leading platform for **Operational Intelligence**. It enables the curious to look closely at what others ignore—**machine data**—and find what others never see: insights that can help make your company more productive, profitable, competitive and secure.

What can you do with Splunk? [Just ask.](#)

The Cloud Opportunity

Cloud equals opportunity. The opportunity to remove obstacles and enable immediate growth. The opportunity to redesign your development and operational processes for the modern era.
